REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANINGS OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. Naval radio operators were trained in the Naval Radio School in Braila prior to 1946; but in the summer of 1946 this school was disbanded. [redacted]
2. After the Naval Radio School was disbanded, all naval radio operators' training was given "on the job" ie, at the different naval communication units. This training was a considerably reduced program, compared to the four year, elaborate course of study formerly offered to naval radio operators at the Braila Naval Radio School. The three month training course was given while the sailors were on active duty, and consisted of transmission and reception procedure, and these only in Morse code.
3. The "I" signals and operational methods were taught after the radio operators had been assigned to their respective radio stations. [redacted] the equipment used in the preliminary three month training period was the same type as that used at the Braila Naval Radio School.
4. [redacted] at the Braila Naval Radio School [redacted] the majority of students had volunteered for the course and were eager to study. In general, they made good progress at school, and only two, from approximately 40, were dismissed for lack of application to their work.
5. Most students [redacted] did not favor Communism, and, to the contrary, many were rather anti-Communitistic in their attitude.
